## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 19, 2005 has been entered.

### ***Amendment Entry***

2. The amendment filed August 19, 2005 has been entered. Claim 25 has been amended. Claims 28-30 have been newly added. Claims 1-24 have been cancelled. Claims 25-30 are under consideration in the office action.

### ***Withdrawal of Rejections***

3. The following rejections have been withdrawn in view of applicants' amendments and arguments:

- a) The nonstatutory double patenting rejection of claims 25-27 under the judicially created doctrine of obviousness-type double patenting;
- b) The objection to claim 25;
- c) The written description rejection of claims 25-27 under 35 U.S.C. 112, first paragraph; and
- d) The new matter rejection of claims 25-27 under 35 U.S.C. 112, first paragraph.

***Terminal Disclaimer***

4. The terminal disclaimer filed on August 19, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent 5,922, 562 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Reasons for Allowance***

5. The following is an examiner's statement of reasons for allowance: In view of the immunogenic composition comprising not more than one synthetic peptide having no less than six amino acids and no more than 150 amino acids and a pharmaceutically acceptable carrier thereof; wherein the synthetic peptide is comprised of the amino acid sequence, SEQ ID NO: 74 or SEQ ID NO: 85, and which produces an immune response when administered to a host, the claims are deemed allowable since the prior art does not teach or fairly suggest immunogenic compositions having the synthetic peptide's amino acid sequence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance." Therefore claims 25-30 are allowed.

Art Unit: 1645
